ONE, TWO, THREE—PRESTO!

The First Non-penetrating, Non-intrusive Systems

This high quality stainless steel fastening component will attach with unprecedented strength in latex modified mortar. This system provides a solution that is simple and measurably strong. The PermaTile™ System will end unnecessary damages resulting from drilling finished tile work. Our system establishes a new value for thin-set mortar.

Simply the fastest and most efficient shelving installation system for tile professionals!

The First Non-Penetrating, Non-Intrusive Tile Fastening System

PermaTile™ Fasteners	Wall Anchors and Molly
1175 Lbs	Wall Anchors: 7 to 15 Lbs Mollys: up to 50 Lbs
<ul style="list-style-type: none">• Mortar-based fastening system• Holds 1175 Lbs in A118.4 latex modified thin-set mortar• Tested by the TCNA (Tile Council of North America)• No more penetrations into wall cavity• No drilling required• Will not violate waterproofing, plumbing or wiring• Installs in minutes• Exclusive value for tile professional• All non-corrosive stainless steel• Will work with all standard tile products and thicknesses• Will never loosen	<ul style="list-style-type: none">• Causes penetrations into the interior wall cavity• Requires expensive diamond cores• Very time consuming• Will loosen with interaction• Limited strength• Mollys require larger holes to be drilled for strength• They just don't work! 

Features and Benefits

Tile Professional Values	Consumer Values
<ul style="list-style-type: none">• Designed specifically for tile professionals• Encourages quick turnaround where shelving is required• Eliminates failures resulting from drilling into completed tile work—such as puncturing waterproofing, tile breakage, plumbing and wiring intrusions• Eliminates the need for wood blocking behind the wall• Installation can occur within the body of a tile or a grout joint• Basket mounting can occur immediately after grouting—no special trips• Learn how to install in minutes• No special tools required	<ul style="list-style-type: none">• Our baskets have a distinctive look and one touch demonstrates their fine quality• Baskets are eclectic, designed to fit a broad style palette and will work with any tile motif and pattern• Accessories that stay firmly mounted, even with everyday use• Each model is easily interchangeable• Solid brass, will not oxidize or rust*• Solid brass products last for decades, having the same longevity value as shower trim and valves• Solid brass provides a basis for multiple finishes• Solid brass provides a basis for durable finishes• Limited life time on basket construction with 5-year finish warranty <p>*Note not one of our products are made from carbon steel, carbon steel products rust, red yellow and orange.</p>
